INTRODUCTION

Our Story

At **9YARDS inc.**, we specialise in capturing powerful stories through video and photography — whether it's the raw energy of a live concert, a behind-the-scenes artist profile, or branded content that cuts through the noise.

While music is at the heart of what we do, our services go beyond the stage. We offer full-scale video production and photography for events, promotional campaigns, social content, interviews, and more — working with artists, brands, and organisations who want to connect with their audience in real, impactful ways. From concept to final cut, we create visuals that don't just look good — they mean something. Whether you're an artist building your brand, a creative team launching a campaign, or a company looking for dynamic media content, we bring your vision to life with a fresh, authentic edge.

Founded by Jason Harris and Addison Jones, **9YARDS inc.** began as a passion project rooted in music and media. Today, we're building a creative movement — one that celebrates visual storytelling, fosters community, and empowers the next generation of creators and culture shapers.

At **9YARDS inc.**, we go all the way — for the visuals, for the creators, and for the culture.
